# 2U Pivoting Patch Panel

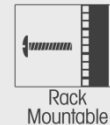

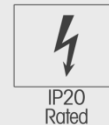

The 19" Pivoting patch panel is designed for compact and high density system requirements, especially for FTTx applications.

This solution allows easy access to the front as well as the splice trays and pigtails at the rear without having to remove the panel from a cabinet or rack.

### Features & Benefits

- Made from high quality materials and designed for easy access for installers and network administrators
- Swing-out pivoting tray and swing-open magnetised front for minimising the movement of cables
- Houses not only splices, cassettes, pigtails and adapters, but also patch cords and cable
- Cable guides around the panel to ensure bend radius in any application
- Cable entries to the side and rear
- Adjustable mounting brackets for mounting in various cabinet sizes and requirements
- Screwless adapter mounting various cabinet sizes and requirements
