CABLE GLANDS

TAILED

PRODUCT SPECIFICATIONS

Lincom Cable glands provide the secure sealing of enclosures at cable entries by tightening around a cable. Cable glands also hold entry cables into place and avoid unwanted fibre strain.

Tailed cable glands provide added protection for the entry cable, helping maintain cable bend radius and prevent damage of the cable at entry point.

ORDERING INFORMATION

Product Code	Thread	Cable Diameter (mm)	Entry Diameter (mm)	Colour
TCG09XXX	PG09	4-8	16-18	Black/Grey
TCG13.5XXX	PG13.5	6-12	20-22	Black/Grey
TCG16XXX	PG16	10-14	22-24	Black/Grey
TCG21XX	PG21	13-18	28-30	Black/Grey
