

FIBRE MANAGEMENT

3U MODULAR LGX PANEL

F7

PRODUCT SPECIFICATIONS

The Modular Fibre Optic Patch Panel enables interconnection between outside plant, riser, and distribution cables. With a modular design, cable guider system, and front-end cable guider, it offers a flexible and organized cable management solution for networks and data centres, particularly in space-constrained environments.

APPLICATIONS

- Aerial
- LAN/WAN
- Wall & Terrace

FEATURES

- Changeable adapter panel
- Flexible Cable Management
- Modular Design

BENEFITS

- Sturdy Design
- No Special Tools Required
- Protects Fibres in Field

SPECIFICATIONS

Adapter	SC, FC, LC
Capacity	144F
Material	Cold Rolled Steel
Dimensions	482.6x250x135mm(3U)
Colour	Black
Installation	19" Rack Mount
Splice Tray Capacity	12/24F per tray
Modular Unit	12 Units, each 12 SC
